

## *Spring is the perfect time for Green Renewal..*

*Welcome April with the invigorating and uplifting aroma of lime. Brought to North America by Christopher Columbus, it is the more exotic of its citrus counterparts. It's a wonderful element in rejuvenation. Limes contain antioxidants that boost the immune system and improve your energy level while hydrating the body and skin. This is especially important when the skin is dry and damaged.*

*Limes have personality! They are cheery, anxiety reducing, restorative and refreshing to the tired mind.*

*So, as they say in St. Lucia, "Lime Down!" ("Relax and Enjoy!") with our Green Renewal line of services for April.*

*Receive 10% off any Green Renewal Treatment or product*
